United Vision Plan is not a health insurance plan or a medical discount plan, but rather a benefit plan provider via a subscription program. All benefits are from the UnitedVisionPlan.com online catalog. The benefit plan excludes medical treatment of injury or eye disease, special coatings or lens designs (unless otherwise specified in the benefit plan), vision therapy, lost eyewear replacements, eye-exam, and out-of-network providers reimbursement. All free frames and coatings are contingent on payment for lenses.
